

Furniture Catalogue New Zealand

Welcome.

We are pleased to present our complete offering made by the largest office chair and seating manufacturer in Australasia. Here you will find our well-loved office chairs and seating solutions.

The CS Team continues to expand & remain focused on our manufacturing. We are looking to the future of manufacturing more CS-made components and local content, creating jobs, apprentices and local investment. We now produce our contoured, moulded foams at our CS-Foam factory. We partner with Italian designers to bring innovative designs that give New Zealand businesses contemporary and aesthetically

pleasing solutions. CS is one of the only commercial furniture manufacturers in New Zealand with a local focus, specialising in office chairs and seating. This difference helps us understand and meet the needs of our local clients and customers. Our history, diverse culture, and listening to the needs of our dealer network all set us apart. We look forward to growing with you in 2023 and beyond.

Sedo E

The Sedo-E was designed in conjunction with independent ergonomist Prof. Terry Cunliffe. The seat and backrest contouring of the Sedo-E are designed to control the dissipation of contact pressure. The backrest lateral contour is configured to encourage and support an upright operator posture. This helps avoid asymmetrical sitting pressure and spinal scoliosis.
