

Cascade™

● Custom Cascade™
Static Screens in Empire

● Autex Acoustics
United Kingdom

Sheer tranquility

As the name suggests, Cascade™ Hanging Screens are spatial and acoustic partitions that fall elegantly from the ceiling to the floor—fixed or suspended at either end via the Cascade suspension kit.

The Cascade family consists of three distinct screen styles—Static, Folding, and Expanding—each made from 100% polyester fibre with delicate water-cut patterns. Static screens are 1200 mm by 2400 mm, holding space without obstructing sightline in open-plan environments. Folding screens are the same dimensions, but their water-cut patterns fold out, increasing surface area for acoustic absorption. Expanding Screens start at 1200 mm by 2400 mm, growing 100% in size through a series of intricate cuts to form fine, lace-esque patterns.

Lightweight yet sturdy, Cascade Hanging Screens are semi-permanent by nature; easy to install, uninstall, and move around your space as required.

To find out more about Cascade visit www.autexglobal.com

Features and benefits

- Delivers excellent acoustic performance
- A complete system, simple to install straight out of the box
- Lightweight and incredibly easy to handle on-site
- Easy to retrofit in existing spaces
- Semi-permanent so that you can change your space as required
- Environmentally conscious product with recycled material content and no added chemical binders
- Low VOC, non-toxic, non-irritant, non-allergenic and contains no Red List chemicals—great for IEQ

Applications

- Decorative and functional acoustic screen system for interior spaces
- Can be fixed to, or suspended from, ceilings and floors
- Effortlessly creates breakout zones in open-plan spaces

Cascade™ Expanding Screens

In perpetual evolution, the Cascade Expanding Screen blooms and wanes to meet the needs of your space. With a gentle tug, the screen concertinas out, growing 100% in size without off-cuts or cut-outs; an intuitive design that is both environmentally and spatially aware.

Cascade™ Folding Screens

Dynamic and mutable, Cascade Folding Screens provide tactile privacy. The folding patterns, adjustable via water-cut hinges, can be gently altered to balance acoustic absorption and line-of-sight as required.

Cascade™ Static Screens

A semi-permanent acoustic screen, the Cascade Static Screen exists in limbo—sheltering you from distractions for as long as you need it to. Fixed or suspended at either end with the Cascade suspension kit, the Static Screen is easily installed, uninstalled, and relocated; equally at home in open-plan spaces that evolve often, and spaces with an established layout.

Customisation

As creators and innovators, we understand your pursuit of the bold and unusual, the rare and exceptional—the brave, colour-outside-the-lines ideas. Every space you design is unique, therefore, every element—from floor to ceiling—should be tailored to fit. Our customisation tools offer unique avenues for creative expression to help you achieve your vision—all that’s left to explore are the boundaries of your imagination.

Our customisation capabilities include Print, Etch™, Groove, Precision Cut, Mould and Press, and Peel ‘n’ Stick.

Cascade™ suspension kit

Each Cascade screen is supplied with one standard suspension kit for top suspension. All available suspension kit parts are pictured to the left. Additional parts are available for other install methods, detailed on the following page.

Please note that there are two Cascade Expanding Screens per pack, so you will receive two suspension kits.

Parts supplied per screen

Frontier™ Channel (A)

Part Number: RAFNEXPC1212

Attachment Set (B,2xC,D)

Part Number: RAHVAS

Additional parts

Clips (E)

Part Number: RAFTCC

Suspension Magnet (F)

Part Number: RAMALS1

Ceiling Grid Hanger (G)

Part Number: RADCLS12

We are
proud to be a
carbon neutral
organisation

We have reduced and balanced all carbon emissions from our business operations, including manufacturing to zero.

We offer entirely
carbon neutral
products

All our products are carbon neutral with emissions offset through certified carbon credits.

0kg

CO₂-e per kg of product

Sustainability pillars

The five pillars of our sustainability strategy define all aspects of our operations and the products we offer.

01

Climate change demands climate action We are carbon neutral in everything we do.

02

Closing the loop We are advocates for closing the loop on waste. We contribute by using recycled material through to creating recyclable products.

03

Sustainable supply chain We carefully select responsible suppliers to eliminate unethical practices and encourage good working conditions.

04

Supporting wellbeing in buildings All our products are made using only safe materials. No harmful chemicals are used in any stage of our process.

05

Operating a business for purpose and profit We strive to have a positive impact on our environment, our people, and the next generation.

In everything we do

Our journey to carbon neutrality

1967

Founded in Auckland, NZ, creating underfelt for the flooring industry

1990

Established a zero-waste production line

2012

Reclaimed waste trimmings, **reducing raw material use and associated emissions**

2017

First EPD's published and started measuring **greenhouse gas emissions**

2020

Dematerialisation project which reduced raw material use **by 30% for core product**

2021

We balanced all emissions from our **acoustic products to zero**

2022

We balanced all emissions from our **global operations to zero**

Australia
New Zealand
United States of America
United Kingdom

How we're fighting climate change

The climate crisis is the biggest issue of our generation. As a product designer and manufacturer, we have an opportunity to help improve the carbon impact of our industry.

Our operational carbon emissions

We are a carbon neutral business. We actively monitor the carbon emissions of our entire operation to better understand our carbon footprint and how we can further reduce emissions. We have an internal strategy to reduce our carbon emissions and have successfully delivered a number of carbon reduction initiatives within our operations. Any carbon emissions that are currently unavoidable are offset through certified carbon credits. We have a commitment to purchase only verified carbon credits that are retired on robust registers to ensure we are driving positive change.

Key business activities contributing to our operational emissions

Embodied carbon of our products

Our products are carbon neutral, and we are the first business in our industry to include the cost of carbon in our products. We consider this an investment in present and future generations, and simply a cost of doing business. We calculate the embodied carbon of our products, from the raw material to the manufacturing gate, using industry recognised ISO standards. We have reduced the carbon footprint of our products through smart design and efficient manufacturing. While the embodied carbon of our products is low, they still do have a carbon impact. We mitigate this through our Carbon Neutral Product Initiative by offsetting the equivalent emissions using certified carbon credits. These carbon credits are generated from projects focused on renewable energy, fuel switching, and reforestation around the world.

Key activities contributing to the embodied carbon of our products

Certifications

Certifying your green building

Autex Acoustics products meet criteria for WELL, LEED, Green Star, and BREEAM building rating systems, helping you achieve certification for your project. For support and guidance on available rating system points, please visit www.autexglobal.com, or speak with your Autex Acoustics account manager.

Environmental Product Declaration

An Environmental Product Declaration (EPD) is a document that communicates information about the life-cycle environmental impact of a product, including embodied carbon. Our EPDs are created and verified in accordance with ISO 14025 and EN 15804, used for construction products and services.

GreenRate – Level A

GreenRate is a multi-attribute environmental certification that scores products on a range of environmental, health, and social measures. Autex Acoustics products are certified to achieve GreenRate Level A. Level A is the highest GreenRate level and demonstrates the highest level of product sustainability.

Declare – International Living Future Institute

The ingredients in our products have been reviewed against the Living Future Challenge Red List and achieve a Third-Party Verified 'Red List Free' status.

Products achieve the highest 'LBC Red List Free' status when:

- Ingredients are 100% disclosed and are not found in the Red List
- Products are shown to meet VOC emissions limits

We assure the accuracy of our certifications by having our Declare labels independently verified by a third party expert.

Heath Product Declaration

A Health Product Declaration (HPD) is a document that reports the ingredients of a product and the health effects associated with these ingredients. A Health Product Declaration has been generated for each of our products.

CDPH Standard

CDPH Standard Method (CA Section 01350) is a widely used standard to evaluate building products for low volatile organic chemicals (VOC) and formaldehyde emissions. All Autex Acoustics products meet the limits set by CDPH and the LEED building rating scheme.

ISO Certifications

ISO 14001 – Environmental Management

Autex Acoustics manufactures under environmental management processes that are ISO certified. This certification gives assurance that we manage any environmental impacts within our operations.

ISO 9001 – Quality Management

Autex Acoustics has a strict quality management system that is ISO certified. Robust quality processes from raw material through to product release help ensure our products meet expectations.

ISO 45001 – Health and Safety Management

Autex Acoustics manufacturing operations have an ISO 45001 certified Health and Safety Management System to ensure the safety and wellbeing of our people.
