Design: Blizzard

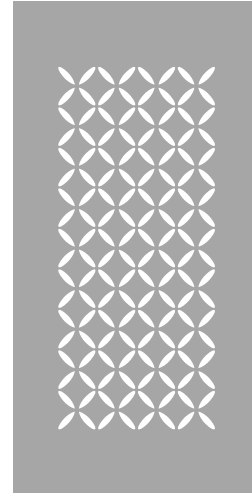

Taonga designs represent a unique and culturally rich expression of art and craftsmanship. Taonga refers to treasured objects or possessions that hold significant cultural and spiritual value.

Featuring intricate patterns and symbols, each design tells a story of specific meaning and significance, connecting the past with the present, and preserving the cultural essence of the Maori people.

Biophilic

Acoustics by Ergostyle

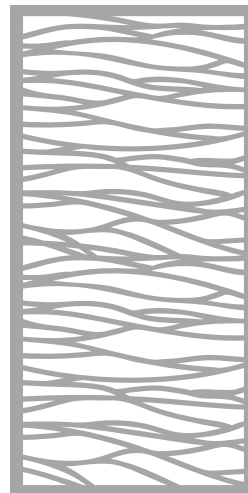

Biophilic design is a transformative approach to architecture and interior design that seeks to reconnect people with the natural world. It is our innate human desire to be surrounded by nature, even in work environments.

Our designs include natural elements and views of the outdoors to improve mental well-being and increase productivity. Bring the natural light inside with our biophilic designs featuring plant life, water, wood and stone.

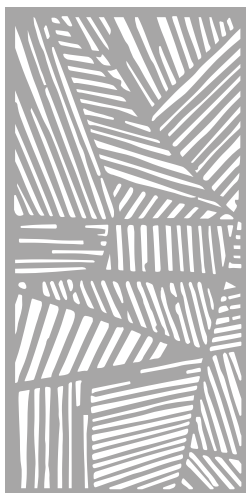

By bringing elements of nature into the workspace our acoustic biophilic designs also promote a more sustainable way of working.

Geometric designs represent a timeless and fundamental aspect of art and design. These precise, symmetrical patterns and shapes are visually appealing and evoke a sense of balance and order.

Whether it's the perfect symmetry of a cube, the elegance of a sleek zigzag pattern or the balance of a classic chevron, our geometric designs have the power to captivate and inspire.

Specifications

Our products are designed to manage noise reverberation by absorbing sound energy. With a large selection of wall, hanging and ceiling styles we have an acoustic solution to suit your workspace.

Product Specification

Product Name:
Ergostyle Acoustic Panel.

Composition:
100% polyester fibre with no less than 70% recycled content.
100% polyester fibre from polyethylene terephthalate (PET).

Panel Dimensions:
1220 x 2440mm or special size.

Thickness: 12mm.

Weight: 2300gsm.

Warranty:
10 years on Ergostyle Acoustic Panel (excluding manufactured goods).

Acoustic Performance

NRC 0.40 when adhered directly to the wall. Absorbs up to 40% of noise that comes into contact with the surface.

NRC 0.80 with a 50mm air gap.

Environment

Low VOC.

Made from minimum 70% recycled content.

Material is non-irritant / nonallergenic / non chemical binders.

Applications

Acoustic wall, hanging for commercial, retail and education spaces.

Cut to any shape, pattern or size to suit your workspace.

Print logos or designs on the panels due to semi-rigid structure.

Acoustic surface provides option for pinboard use.

Acoustic space divider offers privacy and sound absorption.

Fire Retardant Testing

Ergostyle Acoustic Panels (12mm) have been tested according to AS ISO 9705-2003 (R2016).

Full scale room test for surface products.

Assigned a Group 1 classification.

SMOGR_{Arc} = 0.086m²/s² x 1000.

As per AS 5637.1:2015 clause 4.2.

Surface Finish

Ergostyle Acoustic Panels are a solid colour with no pattern repeat. Panels do have a slight directional grain.

Colour can vary from samples and by batch due to the nature of the production process.

Colour Fastness

Ergostyle Acoustic Panels are suitable for indoor use only. Colour and light-fastness are dependant on use and exposure. Avoid strong ultraviolet radiation.

Divide

Talk to our team about dividing
rooms in your workspace

Hanging Carved Panels

Acoustic screens that attach to the ceiling and provide privacy, divide up a space and absorb sound. Made using semi-rigid panels and cut to different shapes to suit your workspace.

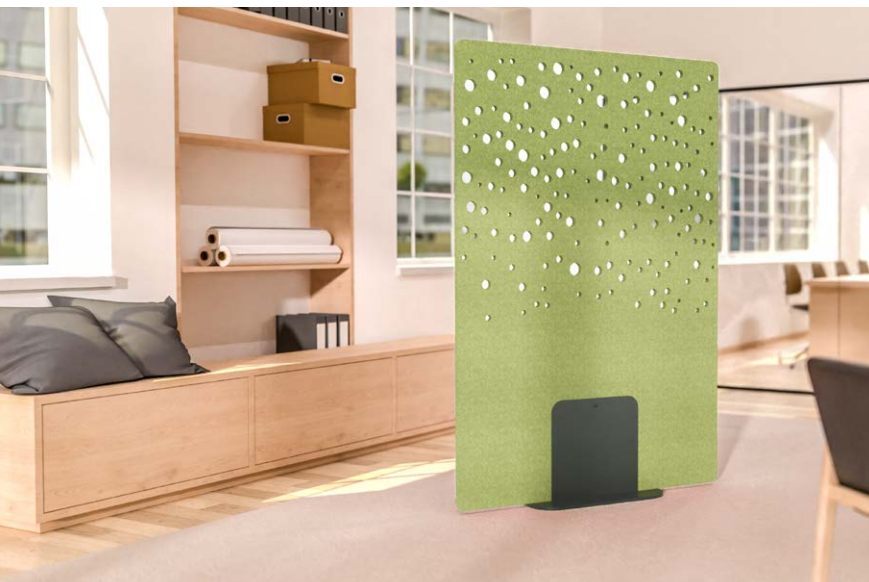

Comes with a fixing kit to suspend from the ceiling. Available in 25 designs and 20 colours.

Freestanding Partition

The Acoustic Freestanding Partition improves audio clarity in shared spaces and is designed for visual privacy while also minimising noisy distractions in the workplace.

Light and agile, simply move the partition around the room to suit your requirements.

Available in 1 panel and 3 panel partitions and 20 colours.

Satori Divider

Reduce noise disturbance while adding elements of design to your workspace. Divide your room and move around to absorb sound.

Available in 3 designs and 20 colours.

Boundary Divider

The Boundary Divider helps create privacy or collaboration areas to absorb sound. Create eye-catching designs in your workspace with 20 colours.

Available in various heights and widths to divide a room.
