

FOLIA

ACOUSTIC PLANTER

Bring life. Reduce noise. Feel better.

Folia is a stylish acoustic planter designed to transform workspaces with natural greenery and sound-absorbing performance. Made from recycled acoustic material, its sculptural form and soft texture create calmer, healthier environments where people can focus and thrive.

-  **Acoustic Performance** – Helps absorb sound and reduce noise in busy workplaces.
-  **Wellbeing & Productivity** – Biophilic design promotes calm, focus and overall wellbeing.
-  **Space Smart** – Perfect between desks, in breakout areas, or anywhere that needs a touch of greenery.
-  **Sustainable Choice** – Made from recycled acoustic material and fully recyclable.
-  **Customisable** – Available in all 23 colours from the Boyd Acoustic Hanging Panel range.
