# Furniture for the Curious

## Rosie

A Modular System Designed for Collaboration.

Whether it's a formal staff meeting or a quick catch up over coffee, Rosie's range of accessories and modular components provides the flexibility to suit any environment.

Available in three heights and with the option to add castors, Rosie is just as at home in the centre of a crucial brainstorming session as it is for a casual 1:1 meeting.

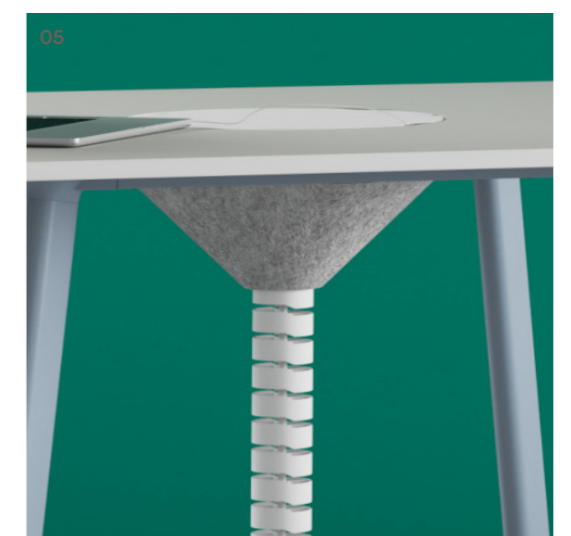

01 Rosie's simple lines and soft forms achieve a design aesthetic that is a perfect fit in today's workplace and yet will also remain timeless for years to come.

02 Available with soft-tread lockable castors at all three heights.

03 Integrated Footrail for 1050mmH frames.

04 Power Vortex is available with 2x power and 2x data or 4x power.

05 Power Vortex includes a fabric cable pocket with an entry for an umbilical to keep cables clean and tidy.

The modularity of the Rosie table system extends to the foot rail system that is included on all standing height tables.

The Power Vortex is a tidy in-table power solution that provides easy access to power to keep your laptop, phone or tablet charged during those agile collaborative sessions while keeping excess cabling off the table top.

#### Rosie

A Modular System Designed for Collaboration.

Whether it's a formal staff meeting or a quick catch up over coffee, Rosie's range of accessories and modular components provide the flexibility to suit any environment.

#### Sustainability Policy

We realise the importance of responsible business practices and have in place numerous product and company sustainability certifications. We would encourage you to download our annual Sustainability Report from the ThinkingWorks website to get a full overview of our sustainability program.
