

PSU Locker

Personalised, collective storage

Euoplan PSU lockers are designed to provide personal storage for the flexible nature of modern working environments.

They are suitable for activity based and agile working styles and offer users a substantial and secure storage compartment for personal belongings and work equipment.

The PSU features a clean and contemporary aesthetic with concealed fixing and hinges making it ideal as a personal storage option on open plan floor plates and workspaces.

The PSU Locker can be customised to suit your own unique storage requirements, minimum order quantity applies.

The PSU is all steel and fully powder coated in white. It is lockable and supplied standard with either a camlock or digital option.
