

DESIGN VERSATILITY, REFINED APPEARANCE.

The Setu family of chairs were created for how we work and live now. Designed in partnership with Herman Miller by Studio 7.5 from Germany, Setu sets new standards of simplicity, adaptability, comfort, and dematerialisation for multipurpose seating.

SETU™
By Studio 7.5

Setu is designed for nearly everywhere we sit, from collaboration areas to meeting spaces to cafes.

Colours, Materials and Finishes

Honesty and innovation in materials are the foundations of design at Herman Miller, and they are hallmarks of Setu. Every detail is driven by function. From the composite Kinematic Spine, to the elastomer seat-suspension, to the H-Alloy aluminium base that requires no finish, Setu provides comfort and durability in an elegant, dematerialised design.

General Dimensions

4-star, 5-star chairs
A height: 914 mm
(5-star 943-975 mm)
B width: 638 mm
C depth: 438 mm

Lounge
A height: 1,051 mm
B width: 695 mm
C depth: 429 mm

Ottoman
A height: 479 mm
B width: 552 mm
C depth: 521 mm

Design for the Environment

- 93 percent recyclable and manufactured using 44 percent recycled content; contains no PVCs
- MBDC Cradle-to-Cradle™ Silver certified
- GREENGUARD® certified
- Level™ certification under evaluation

1/ The spine works together with the new Lyris™ elastomer seat suspension, which stretches in every direction to distribute weight evenly, conform to your contours, and provide aeration. 2/ The durable, non-corrosive H-Alloy™ aluminium base requires no finish, so there is no added labour or harmful toxins. 3/ The core of Setu is the Kinematic Spine™, a combination of two simple polypropylene materials that are precisely engineered to achieve instant comfort, for nearly everybody. You are fully supported the moment you sit down, and the spine bends and flexes to your every move. 4/ Designed to fit all shapes and sizes, spaces and places. 5/ With no tilt mechanism and only one adjustment (height), chair components are minimalised. The chair is dematerialised, lightweight, and easy to use.

SETU™

Product Details

Setu is comfort now. Its innovative kinematic spine bends and flexes to your every move. There is nothing to tilt or tweak. The finely tuned elastomeric fabric provides superior suspension and conforms to your contours.

1 — Lyris™ Seat Suspension: New elastomer system distributes weight evenly and conforms to your contours and motion for a weightless feel.

2 — Ribbon Arm: one piece arm gracefully curves.

3 — Kinematic Spine: made from polypropylene, provides work chair motion without a mechanical tilt.

4 — H-Alloy™: durable, anti-corrosive, unpolished and uncoated for less labour and less eco impact.

Widely recognised across the globe:

- 2010: Design of the Decade Gold Award: 'Best Sustainable Design Solution'
- 2010: Design Mark: Australian International Design Awards
- 2010: Design Distinction Winner I.D.'s 2010 Annual Design Review
- 2009: Setu chairs receive Best of NeoCon Gold in Conference Seating category and Best of NeoCon Silver in Sofas & Lounge Seating category
