

PLN GROUP

Camber
Modular seating system

camber
/'kambə/

noun
slightly convex or arched shape; modular commercial soft seating by PLN Group.

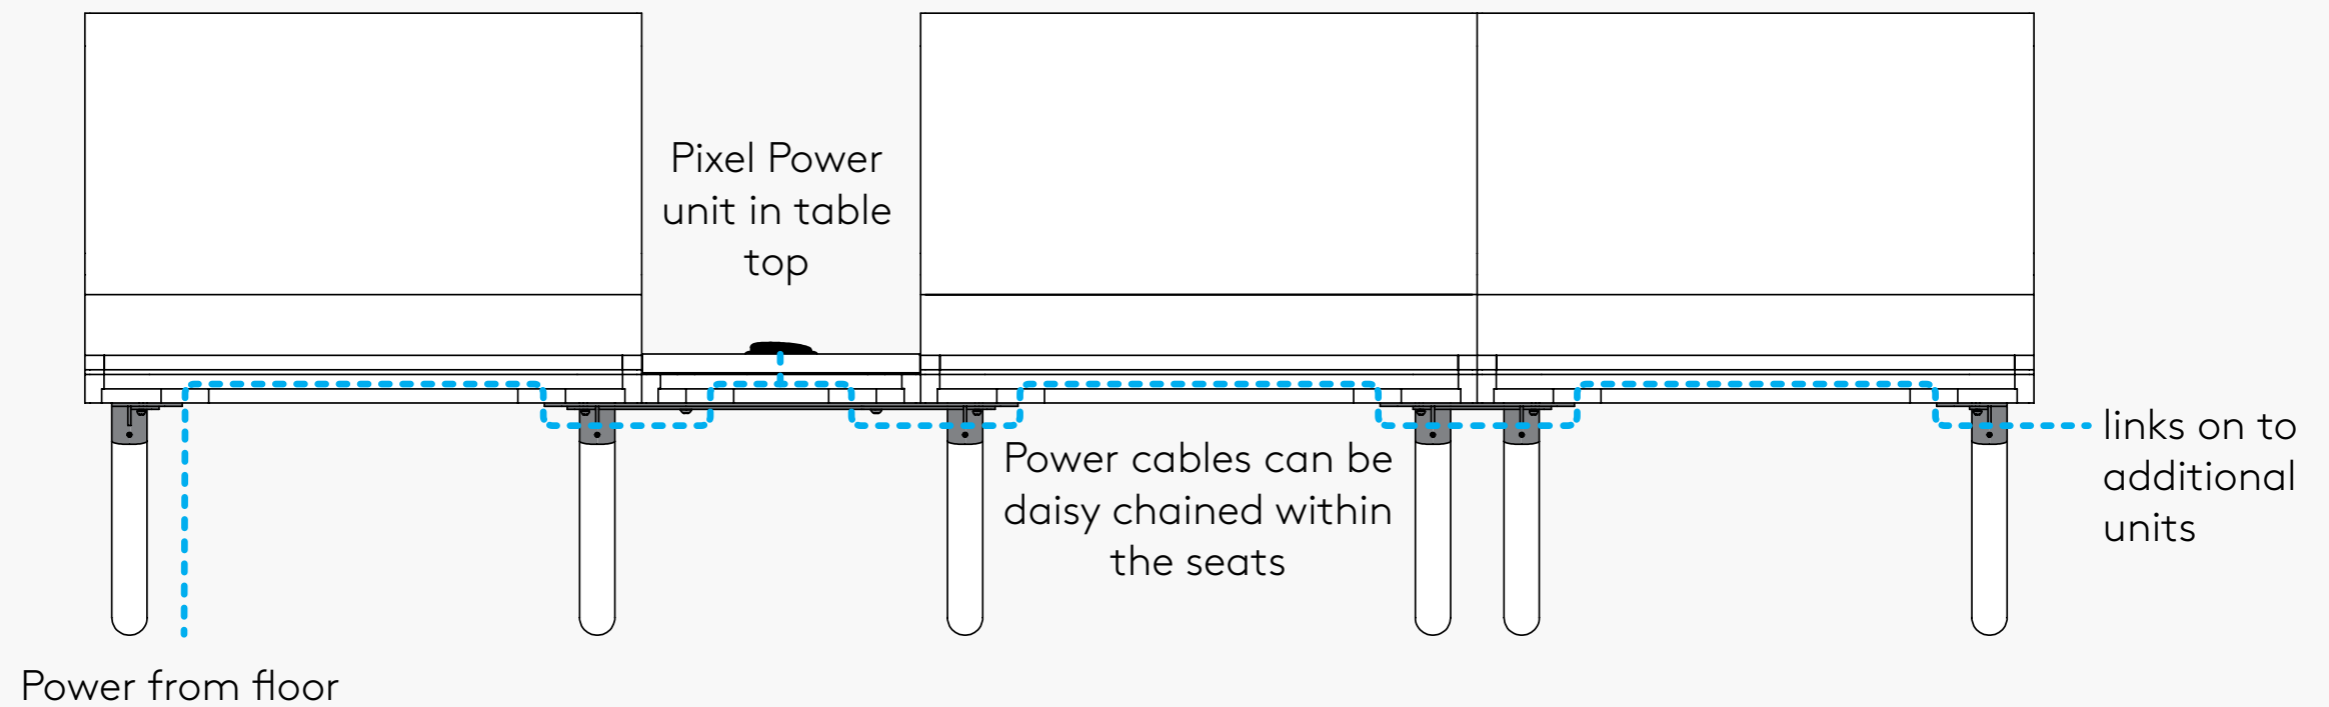

Collaborate in comfort

Soft, curved lines
blend commercial needs
with residential style

Power and data integration allows for agile working

Ergonomically designed for working away from your desk

lower back support keeps spine in healthy S-curve

wrists perpendicular to floor when working at laptop table

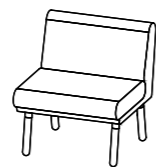

rounded foam cushions the knee allowing you to sit right into the back of the seat

450mm seat height means feet are placed flat on the floor

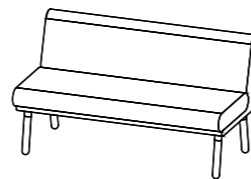

Slide and lock pieces together for **endless configurations and flexibility** based around straight, concave, and convex modular units.
