

Diva 1.1

Exceptionally stylish;
reassuringly practical.

Introducing Diva 1.1 – the
younger sister of the
beloved Diva.

Background & Features

Showcasing the same striking wooden exterior, and featuring a cleaner, more streamlined design, Diva 1.1 offers a more cost-effective and flexible solution for the modern workplace.

Diva 1.1 is available at three heights and is able to span up to 4000mm in length with just 4 legs.

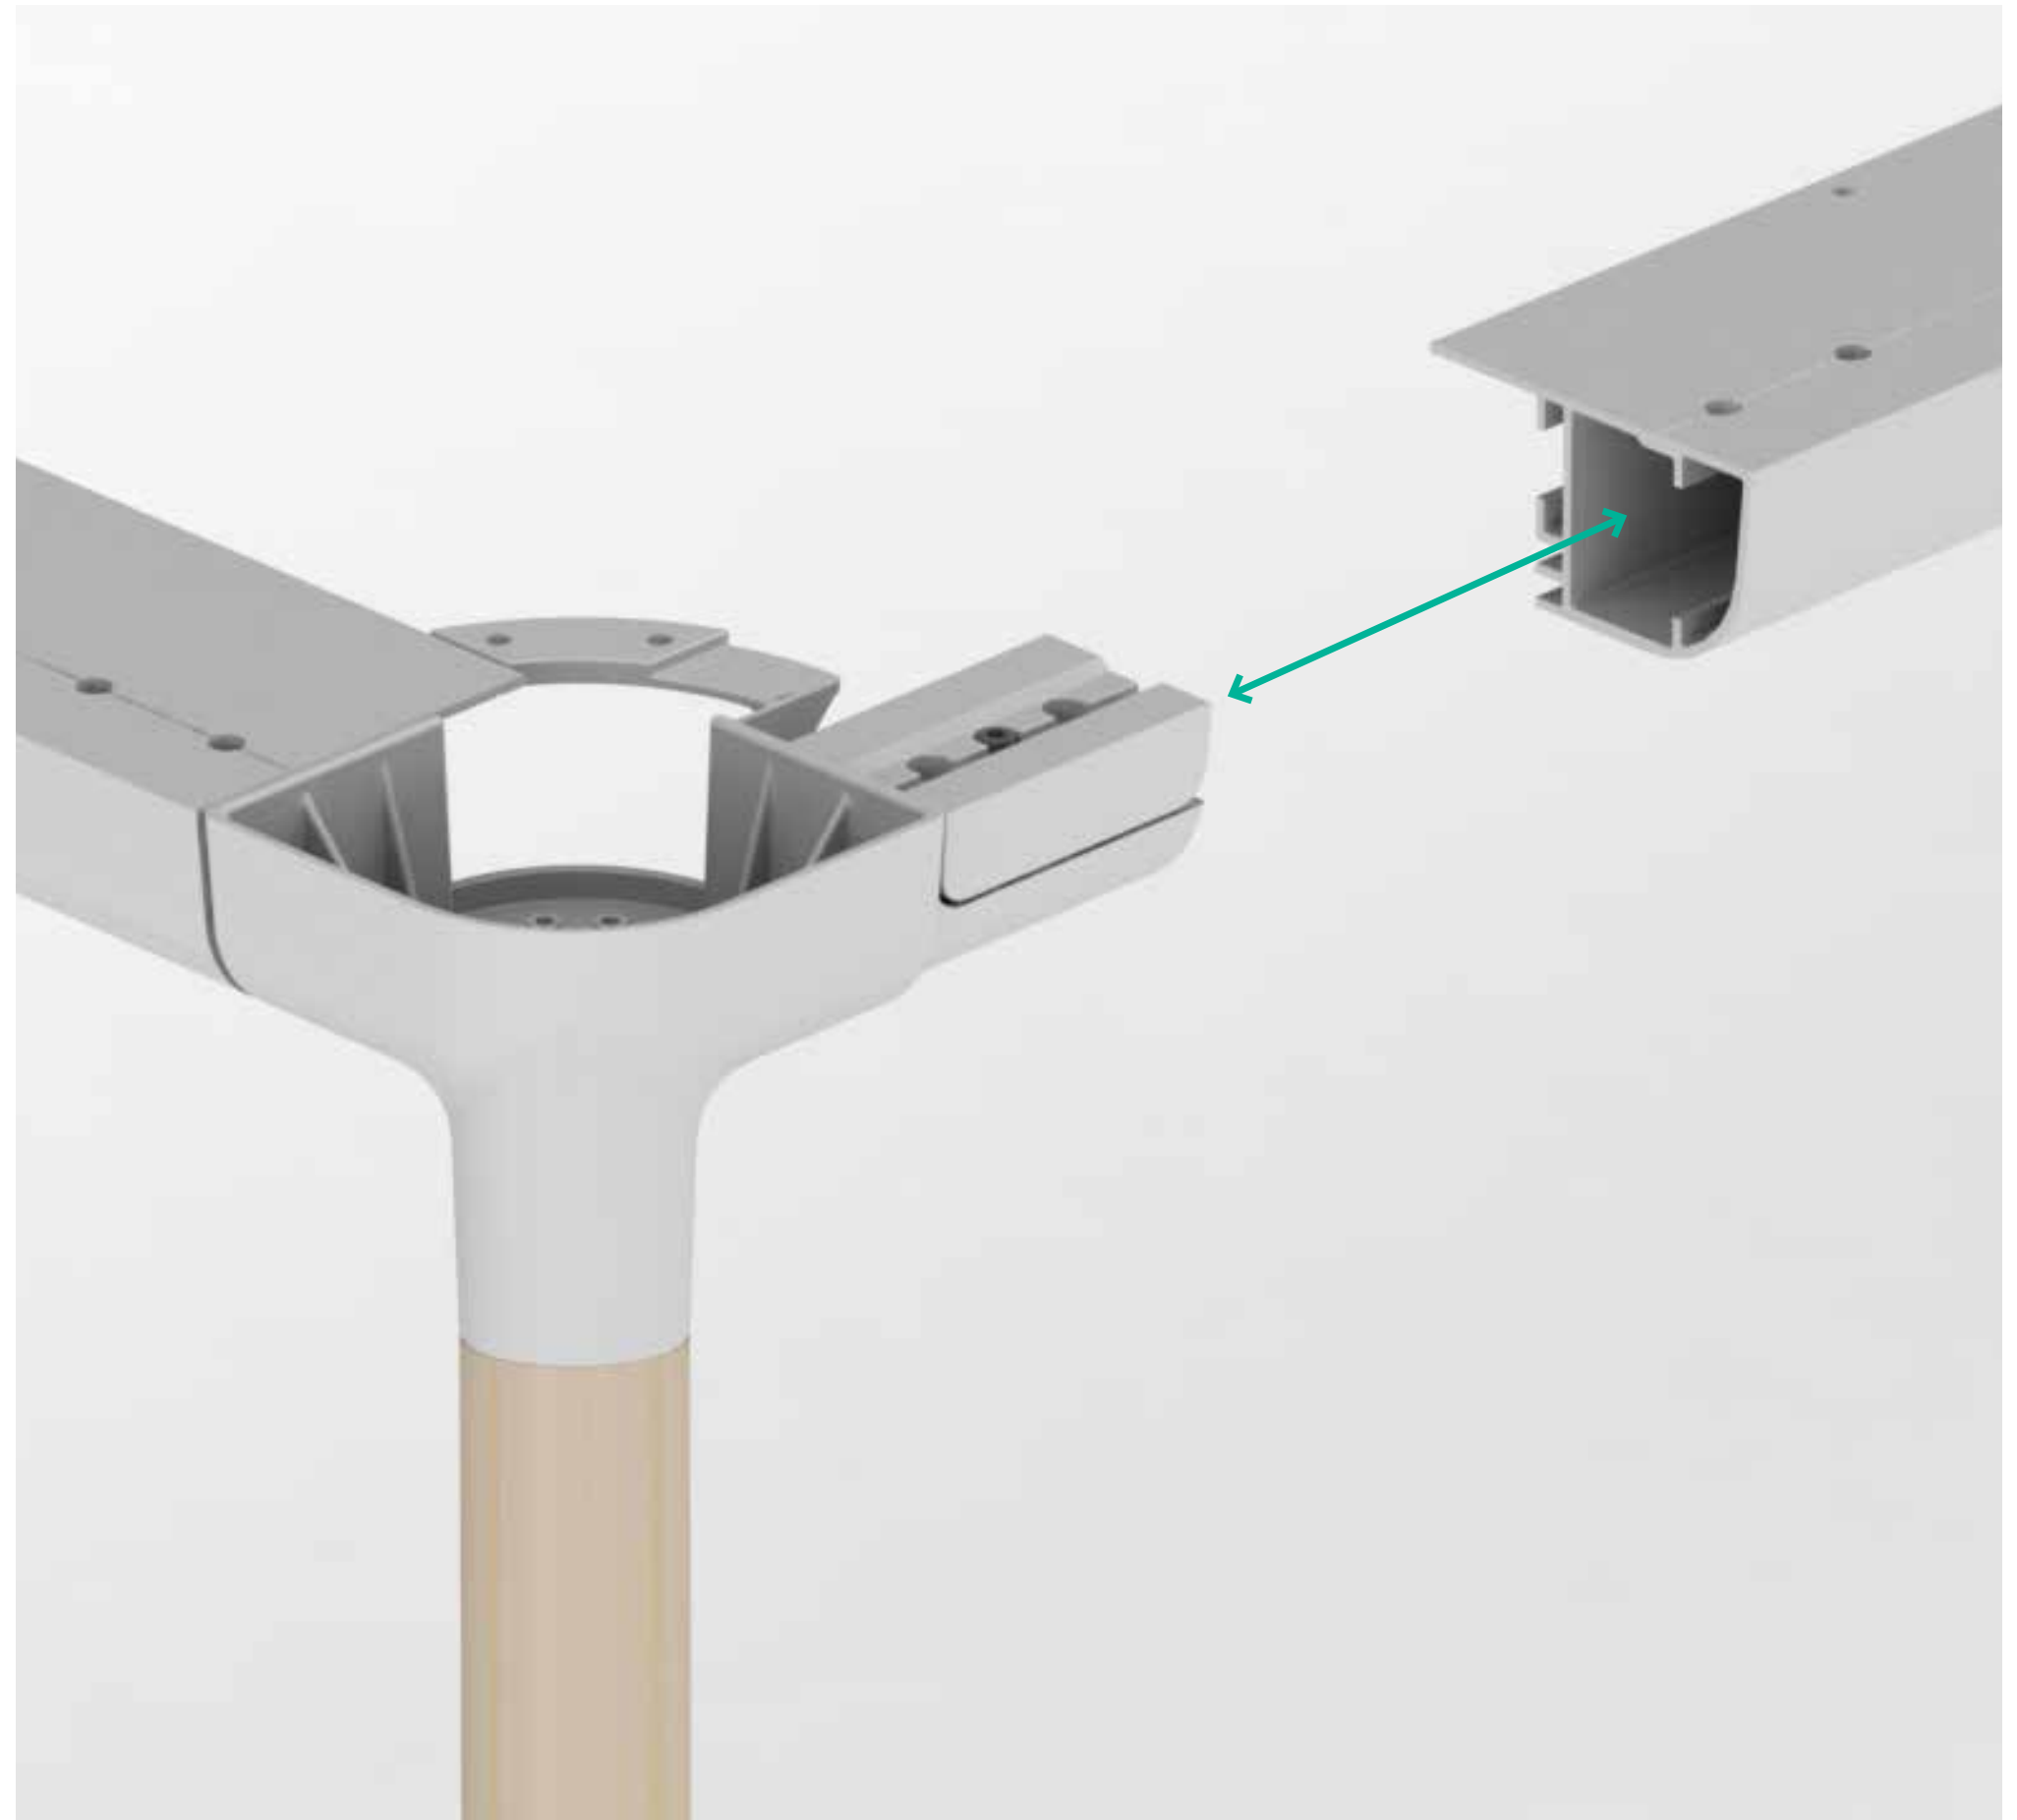

With a simplified foot profile and clear underside, Diva 1.1 delivers the same stunning 'Diva' aesthetic in a more streamlined form.

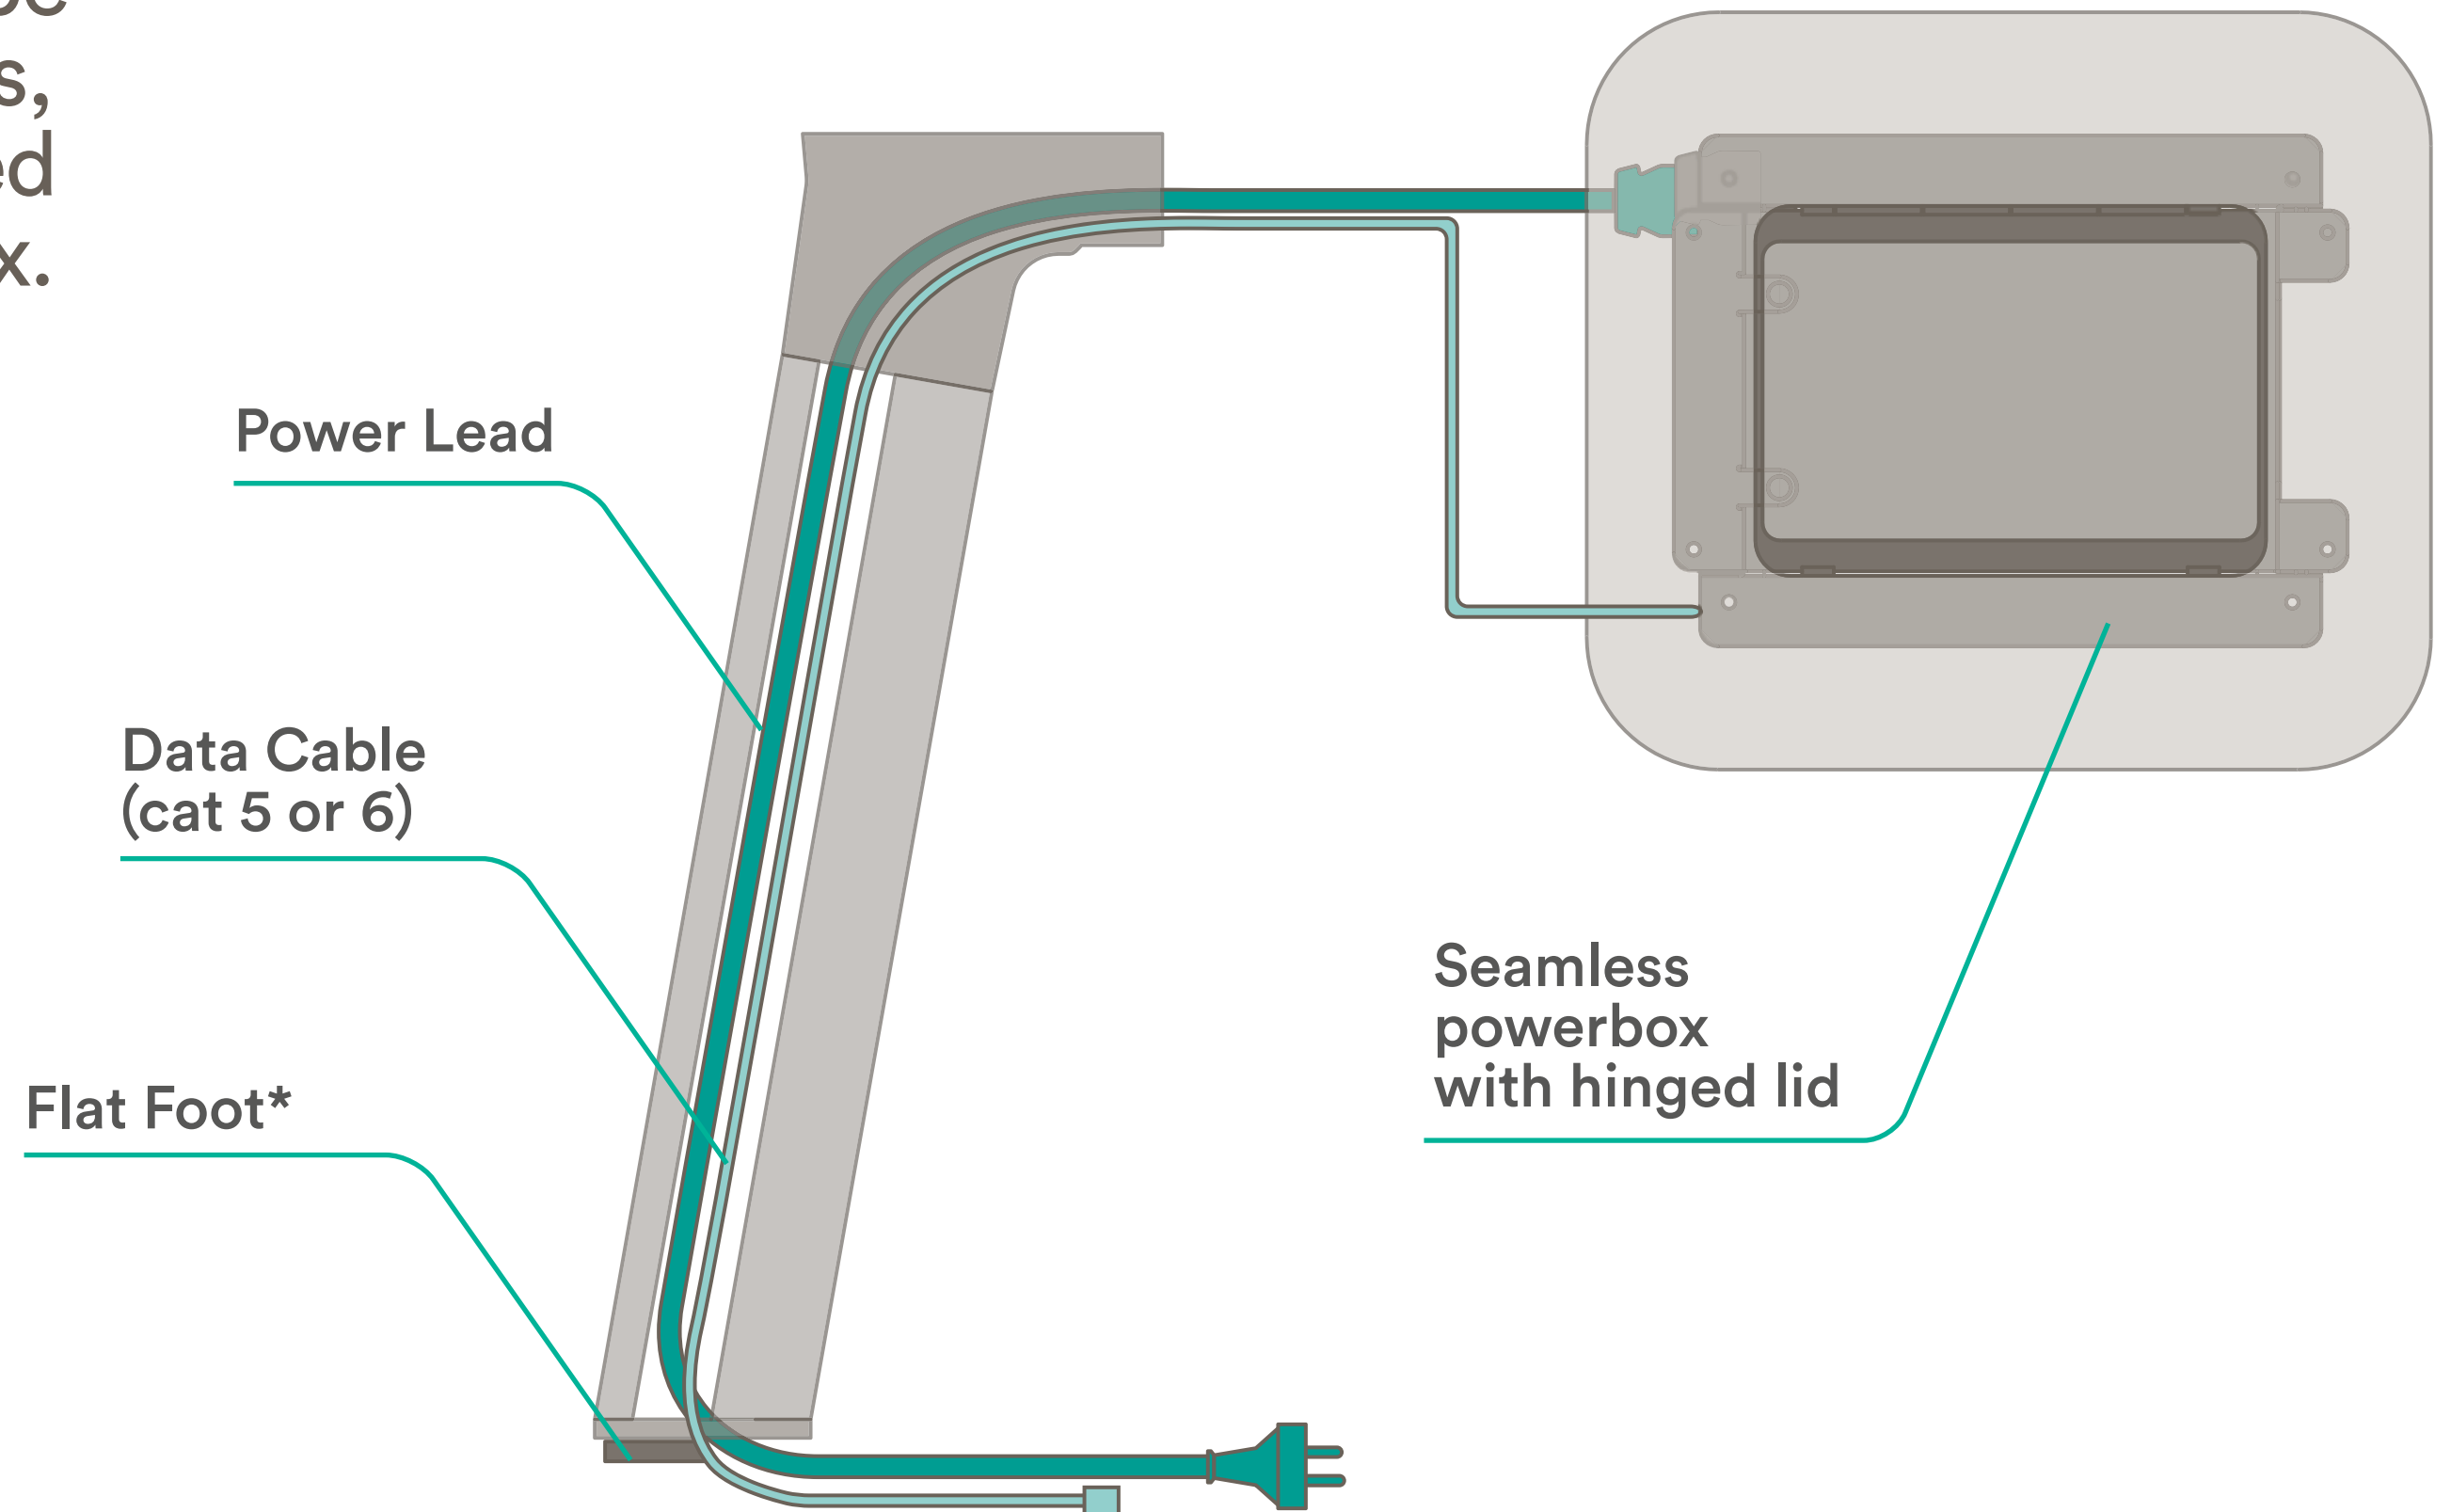

Thinking Works
Cleverness

The die cast Leg to Rail Connectors feature our patented rail connector design. The patented clamping system eliminates exposed screws and enhances the level of finish on the Diva 1.1 table system.

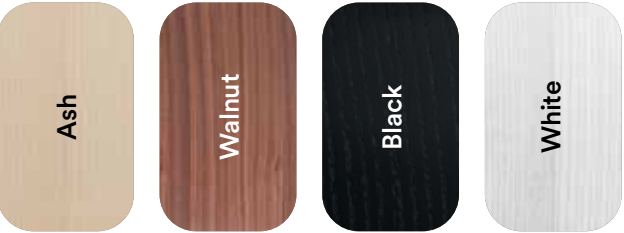

Diva 1.1 allows for power and data cables to be run through the legs, to a centrally located Seamless powerbox.
