

Ovation

Furniture for the Curious

Ovation

Designed with movement in mind, Ovation draws inspiration from iconic transport systems of the world.

From focused to collaborative, Ovation can adapt to suit any environment, with the ethos of moving people quickly and efficiently in their working environments.

Ovation's unique oval leg profile offers a sophisticated take on an office essential, and is available as both a fixed and height-adjustable solution.

01 Ovation is available as Single Sided, Back to Back, 90° and 120° desking solutions.

02 Like the arteries of a transport system, we have redesigned the way we route soft wiring, concealing it in an enclosed cable pathway with removable segregation and

multiple access points to keep the system running smoothly and efficiently.

03 A unique cable bridge option allows the user to conceal and segregate soft wiring from work point to work point.

04 Ovation's optional Power Pocket Modesty allows for

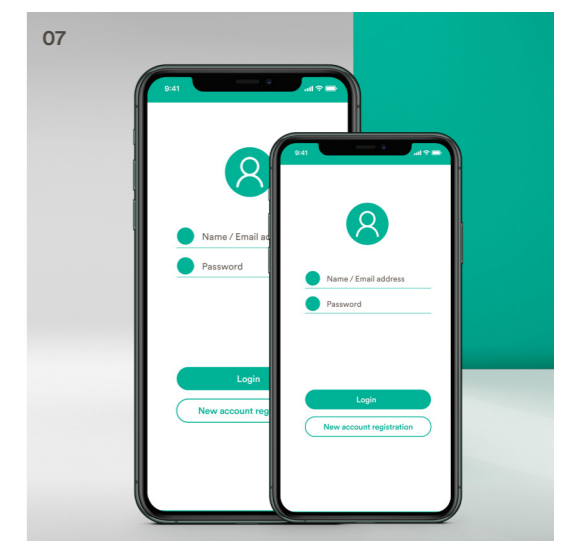

up to 6xGPO points and provides a clean and easy solution for excess cabling.

05 Acoustic screens are available at two heights with PET and upholstered finish options. Framed and Frameless options are both available.

06 Electric height-adjustable

Ovation frames can be pre-programmed to three different height settings and come with an in-built 'Impact-Stop' response.

07 Electric height-adjustable Ovation desks have the option to integrate smartphone-based controls via our Bluetooth Wellness App.

Ovation

A sophisticated take on an office essential, the Ovation desking system features a sleek, oval leg profile and is available as both a fixed and height-adjustable solution.

Sustainability Policy

We realise the importance of responsible business practices and have in place numerous product and company sustainability certifications. We would encourage you to download our annual Sustainability Report from the ThinkingWorks website to get a full overview of our sustainability program.
